

SUMMARY OF INFORMATION FOR PORT USERS ON THE RECEPTION AND DELIVERY OF SHIP-GENERATED WASTE

County Port Authority of Cres

Ports Covered by the Plan

The Plan applies to the following ports managed by the County Port Authority of Cres:

- Cres
- Cres – Grabar Basin
- Merag
- Porozina
- Martinšćica
- Valun
- Beli

Types of Waste Accepted

The following types of waste may be delivered at the ports:

- ship-generated municipal waste,
- oily liquid and oily solid waste,
- waste oils,
- bilge water,
- sewage,
- cargo residues,
- other types of waste subject to prior agreement with the authorised concessionaire.

Waste shall be disposed of only in designated port reception facilities or handed over to an authorised concessionaire. Discharge of waste into the sea or disposal outside designated reception facilities is strictly prohibited.

Advance Waste Notification

Ships subject to the advance notification requirement shall submit waste delivery information through the Croatian Integrated Maritime Information System (CIMIS) before arrival, within the deadlines prescribed by the Plan.

Charges

The reception of ship-generated waste is financed through an indirect waste fee or charged in accordance with the applicable Port Tariff of the County Port Authority of Cres, depending on the type of service and waste.

Additional Information

The complete Waste Reception and Handling Plan for Ship-Generated Waste and Cargo Residues in the Ports Managed by the County Port Authority of Cres is available on the official website of the Cres County Port Authority (<https://www.zlu-cres.hr/pravilnici/>).

All port users are required to comply with the provisions of the Plan and to deliver ship-generated waste in the prescribed manner in order to protect the marine environment and prevent marine pollution.
